Paranormal Iowa— Tales of Ghosts, UFOs, and Mysterious Creatures with researcher & author: Chad Lewis

Thursday,
Sep. 29 at
6:00PM.

Chad has traveled the world exploring and researching the strange, unusual, and bizarre. He will be visiting and discussing the things that can't quite be explained....

Blu Track & STEM Afternoon:

Friday, Sept. 23 from
4:00pm to 5:00pm

Blu Track is not your typical toy race car track! Blu is a bendable, movable, and changeable two lane race track. The system encourages imagination and experimentation by giving students the basic elements they need for racing, but letting them design the race.

Additional STEM activities will also be set up for students to play and experiment with while taking turns with the race track system. This item will be available for checkout along with the other STEM kits, after the program.
All ages welcome!

Kid & Teen Escape Rooms:
